Portfolio Website

Professional Summary

Computer Science student with interests in Game Development, Unreal Engine, and C++. Experienced in building web applications using React and creating 3D content with Blender. Passionate about gameplay systems, problem solving, and interactive experiences.

Education

SAGE University, Indore

2024 – Present

Bachelor of Technology (B.Tech), Computer Science and Engineering

Technical Skills

Programming Languages: C++, Python (Basic), React

Game Development: Unreal Engine, Blueprints, Gameplay Systems, Godot (Basics)

3D & Creative Tools: Blender, FL Studio, Sketching

Tools: Git, GitHub, VS Code

Other: Problem Solving, UI Development, Content Creation, Vibe Coding

Projects

Math Puzzle Game (React)

Live Demo

- Built a React-based math puzzle game using vibe coding workflows with responsive UI and interactive puzzle mechanics.

Streak Forge (React)

Live Demo

- Built a productivity and habit-tracking application focused on interactive UI, responsive layouts, and user engagement.

Portfolio Website

Live Demo

- Designed and developed a personal portfolio showcasing projects, skills, and development journey.

3D Environment Experiments

- Created 3D models and environment experiments using Blender while exploring lighting, composition, and environment workflows.

Game Design Documents

GDD Collection

View Collection

- Collection of original game concepts, mechanics, progression systems, feature planning, and development documentation.

Certifications

Unreal Engine 5.6 Essential Training
