Portfolio Website

Professional Summary

Computer Science student focused on Game Development, Unreal Engine, and C++. Experienced in building interactive applications with React, creating 3D content with Blender, and designing original game concepts through structured GDDs. Seeking opportunities to apply technical and creative skills in game development.

Education

SAGE University, Indore

2024 – Present

Bachelor of Technology (B.Tech), Computer Science and Engineering

CGPA: 7.3 / 10

Technical Skills

Programming Languages: C++, Python (Basic), React

Game Development: Unreal Engine, Blueprints, Gameplay Systems, Godot (Basics)

3D & Creative Tools: Blender, FL Studio, Sketching

Other: Problem Solving, Game Logic Design, UI Development, Content Creation

Projects

Math Puzzle Game (React)

Live Demo

- Developed a browser-based educational puzzle game that generates interactive math challenges.
- Implemented score tracking and responsive UI using React.

Streak Forge (React)

Live Demo

- Developed a habit-tracking application that helps users maintain daily streaks and monitor progress.
- Built reusable React components and a responsive dashboard interface.

Portfolio Website

Live Demo

- Designed and developed a personal portfolio showcasing game development projects, GDDs, and technical skills.
- Implemented responsive layouts and project presentation systems.

3D Environment Experiments

- Created 3D models and environment experiments using Blender.
- Practiced lighting, scene composition, and environment design workflows.

Game Design Documents

GDD Collection

View Collection

- Created and documented original game concepts including gameplay loops, progression systems, mechanics, and development plans.
- Maintained structured design documentation similar to industry Game Design Documents (GDDs).

Certifications

Unreal Engine 5.6 Essential Training
